

Oussama HAMADA

Full Stack Web Developer

PROFILE

An ambitious engineer who took the challenge of changing my career path to pursue my dream of becoming a fully-fledged Full Stack Developer and conquering what seemed to be impossible to achieve. I'm taking pride in building, creating, and innovating codes as well as learning new skills whenever I can.

EXPERIENCE

July. 2021 -
October 2021

JavaScript Bootcamp @GoMyCode

Becoming a Full Stack JavaScript MERN Web developer from scratch, by indulging in the processes of learning the needed skills on being a Front-end & Back-end developer, and creating many projects during the Bootcamp.

Major Projects:

- **My Best Nanny (MERN Application):**

Designed using MongoDB, Express React and NodeJS, that allows searching & finding babysitters in a set area and booking their services.

- **A Shopping application:**

Designed with React Native that is a simulation to a mobile e-commerce website

- **A blog website:**

Designed with ExpressJS and EJS, a simple blog website where you can share articles.

- **EgyWorst:**

Designed with React, a simple movie app clone that allows the search of a movie by name or rating, as well as adding new movies.

- **A To-Do website:**

Designed with React and redux, a simple front-end app that helps the user to keep track of their to-does.

- **A Shopping Cart website:**

Designed with vanilla JavaScript and DOM, a shopping cart
