PROFILE

An ambitious engineer who took the challenge of changing my career path to pursue my dream of becoming a fully-fledged Full Stack Developer and conquering what seemed to be impossible to achieve. I'm taking pride in building, creating, and innovating codes as well as learning new skills whenever I can.

EXPERIENCE

Personal Projects

- **Online Uno**  

An online multiplayer & singleplayer Uno web game created mainly with React and socket IO, allowing it's users to play one vs one Uno games either versus the CPU or versus a friend. This game have another features such as authentication, guest login, chatting and game rating tracking; this application is tested with Mocha , Chai & JEST.

Techs: React (hooks), React Router v6, SASS, TypeScript, Bootstrap, Express, MongoDB, Socket IO, JWT

- **My personal portfolio**  

My personal portfolio created with React & filled with amazing stylings and complex animations made with SCSS and Figma, in addition to a mailing feature created with Nodemailer.

Techs: React, SCSS, Figma, Express, Nodemailer

JavaScript Bootcamp @GoMyCode

Becoming a Full Stack JavaScript MERN Web developer from scratch, by indulging in the processes of learning the needed skills on being a Front-end & Back-end developer, and creating many projects during the Bootcamp.

Major Projects:

- **My Best Nanny (MERN Application):**  

Web Application that allows clients to search & find babysitters in a desired area/town and booking their services as well as letting nannies to find work opportunities.

Techs: MongoDB, Express, React, Node, Google Maps API, Redux, Passport

- **A Mobile Shopping application:** 

A simulation to a mobile e-commerce application.

Techs: Front-End, React Native, Expo CLI, Redux, Redux Toolkit

- **BlogR:**  

A simple blog web application where you can share articles.

Techs: Back-End, Node, Express, EJS

- **EgyWorst:**  

A movie app clone that allows the search of a movie by name or rating, as well as adding new movies.

Techs: Front-End, React (hooks), React Router, JavaScript

- **A To-Do website:**  

A simple website that helps it's users to keep track of their to-does: Add, remove, mark and filter tasks.

Techs: Front-End, React , Redux

- **A Shopping Cart website:** 

Designed with vanilla JavaScript and DOM, a shopping cart simulation.

Techs: HTML, CSS, JavaScript, DOM

LANGUAGES

SKILLS

Technical SKILLS

Front-End: HTML5, CSS, SASS, JavaScript, TypeScript, ReactJS (Hooks) , React Native, Redux, Figma, MaterialUI and Bootstrap.

Back-End: NodeJS, ExpressJS, PassportJS, Mongoose, Socket io, EJS and JWT

Databases: NoSQL(MongoDB) , SQL

Testing: JEST, Mocha , Chai

Soft SKILLS

- High Learning Speed
- Huge potential
- Critical thinking and agile problem-solving
- Ability to perform in group projects as well as individually
- Always prepared to learn new languages and skills
- Adaptability to change and ability to work under pressure
- Efficient use and management of time

Certificates

- The Full-Stack Javascript Bootcamp, GoMyCode
- National Diploma in Textile Engineering

January. 2022 -
November. 2021

October. 2021 -
July. 2021

EDUCATION

Engineer's degree, Textile Engineering

National Engineering School of Monastir,
Monastir, Tunisia

Scientific Preparatory Cycle in Mathematics & Physics

Preparatory Institute for Engineering Studies of Nabeul,
Nabeul, Tunisia

High School Diploma

Pioneer High School of Nabeul,
Nabeul, Tunisia

2017-2021

2014-2017

2010-2014
